PIARC ROAD DICTIONARY

Whether you are preparing a presentation, a report, etc., the **PIARC online multilingual Road Dictionary** is your reference tool to make sure you are using the right terms, for optimum communication with your contacts.

First published in hard copy in 1931, it now contains more than **16,000 concepts**, totally or partially available in **37 languages**.

The PIARC Road Dictionary is managed by the **PIARC Committee on Terminology**, established in 1986. It is constantly updated, with inputs validated by PIARC experts on Technical Committees. Search results can be displayed simultaneously in up to three languages.
